This 17 day of January 2014

1960 John Deere 630 Standard All-Fuel

Last 1 of the Only 14 made

- **Starts, Runs, Drives Excellent**
- **100% Restoration**
- **New Tires All Around**
- **Serial Number # 6316166**
- **Two-Cylinder Certified**

Here to sell at no reserve is the very last 630 All Fuel Standard ever made. There were 14 total made and 9 were exported to South Africa which is where this tractor was sent 1/16/1960. The tractor was brought back and was recently restored in March, 2014. The Engine was gone through with new old stock All-Fuel pistons, the transmission was gone through with all new bearings and teeth are all solid. New tires, wiring harness, gauges, battery, seat, muffler, gauges, steering wheel, tires and much-much more. See the enclosed complete parts list of work that was done.

Note for comparison a 630 LP Standard has sold for \$60,000. Mecum Auctions sold a 430-S all-fuel in 2014 for \$52,000 (1 of 18 made) and that was a 1959. Polk's in their 2013 fall sale sold a unrestored 620 af high crop for \$50,000 (1 of 18) that wasn't running. Overall we think this 630 all-fuel and last 1 of 14 would be a beautiful addition to any fine tractor collection.
